**PSA Free clinics**

# Press Release

PSA is a professionally structured and organized academy known for providing professional coaching staff and standards. PSA vision is to unify and create an opportunity for all players across the Upper Penninsula. PSA has the resources to help players experience the highest level of soccer in the region. Our efforts are to build bridges within the soccer communities and offer the highest standards in soccer education and training. At this point, PSA is willing to invest 100,000\$ in time and resources into players education and development. If you would like be a part of our project, contact PSA and we will come to your club and do a free, professional, four hour soccer clinic (100\$ value) near you. Our summer's end goal is to reach 1000 players across the Upper Penninsula. Join us and take the opportunity to let soccer take you somewhere you've always wanted to go.
